

YOUR MONEY THEIR HOLIDAY

You've worked hard all
year for your money.
Don't fund a holiday
for criminals.

TURN OVER AND FOLLOW OUR ESSENTIAL TIPS
TO KEEP YOUR CASH SAFE

sabrc

Making South African banking safe, secure and fraud free

ATM SAFETY

Always cover your pin by shielding the hand that is typing it – even if you are alone at an ATM.

Never accept help or ask anyone to assist you at the ATM. Rather go inside the Bank for help.

ONLINE SHOPPING AND MOBILE MONEY

Register for 3D secure, otherwise known as Verified by Visa or MasterCard SecureCode before making online purchases with your bank card.

Be cautious of notifications that you have won any competitions, especially if you did not enter. Do not respond with any personal information.

CARRYING CASH SAFELY

Carry as little cash as possible.

Use alternative banking methods such as Internet Banking and Cellphone Banking.
