

THE SECOND-HAND GOODS STANDARD OPERATING PROCEDURE
Processing of a New Application for the Registration of a Second-Hand Goods
Recycler

1. INTRODUCTION

- 1.1. Every person, business or organization that carries on a business of dealing in second-hand goods, must register with the South African Police Service. This includes an auctioneer, general dealer, jeweler, motor vehicle dealer and scrap metal dealer / recycler.
- 1.2. It is important to note that the Act only applies to a person who carries on a business of dealing in second-hand goods. A person getting rid of his or her own (privately owned) used goods does not fall under the Act and these persons do not have to register. In most instances these persons will not pay income tax on the money they get from the sale of their goods. On the other hand, a person who buys and sells second-hand goods for a living is carrying on a business in second-hand goods and therefore must be registered as a Second-Hand Goods Dealer in terms of the Act.
- 1.3. A Dealer, who engages in the business of recycling controlled metal must in addition to being registered as a Dealer, also be registered as a Recycler. A recycler will therefore be registered both as a dealer and as a recycler. A recycler is a person who processes controlled metal for melting, smelting or granulating.
